Learn more Enter your mobile number or email address below and we'll send you a link to download the free Kindle hecfran-modelismo.coms: Aug 03, Metal Treatments: Browning and Bluing Since the early days of gun-making, people were looking for different ways to better protect the iron and steel parts of their weapons. There are actually two forms of "bluing", one is called "cold bluing" and the other is called "hot bluing". Firearm Blueing and Browning by Angier, R. H. and a great selection of similar Used, New and Collectible Books available now at hecfran-modelismo.com

Browning and bluing are terms used to describe any of several chemical treatments of metals that are essentially controlled rusting processes. On ferrous metals, bluing appears as a dark-colored, protective oxide layer on the surface. Probably the earliest surface treatment for metals was browning. A comprehensive manual with over formulas for chemical and heat colouring of gun metals and for other processes -- ruse removal, barrel finishing, nickel plating -- with practical instructions and notes.4/5(1). A book entitled "Firearm Blueing and Browning" [link is to info about book on Amazon] by R. H. Angier, published by Stackpole Books, London, , p lists "spirit of nitre" as a dilute (%) solution of ethyl nitrite in ethanol. Factory blue is a hot process and blueing at home is normally done through a "cold" process. Browning was the precursor to blueing--used primarily on antique weapons to prevent corrosion (same as blueing) and the process is very doable at home via commercial products or home made recipes.
